Title to the Court House Square or Grounds in Montgomery City.

In some parts of the county a question has been raised as to the exact status of the title to the ground upon which the Court House stands at Montgomery City.

In order to settle the matter beyond cavil or question and that the people of the County may know that the County has a perfect and absolute title to the ground, an abstract of the title has been submitted to five good lawyers, all well known to most of the people of the County, and who have no interests in the County Seat question.

We give the result of their examination in the following certificate duly made and signed by them, which shows a perfect and absolute title in the County, viz:

We, the undersigned attorneys of Mexico, Mo., do hereby certify that we have carefully examined the abstracts of title to the block of ground upon which stands the Court House at Montgomery City, Montgomery County, Missouri which said abstract is hereto attached, and find that the fee simple title to said block of ground is in Montgomery County absolutely and forever, subject only to the right of Montgomery City to operate and use the public well thereon; in all other respects the title to said ground is without condition limitation or reservation and the county can sell or otherwise dispose of said block of ground and convey and pass a perfect title thereto as fully as any individual could convey a fee simple title.

Given under our hands this October 23rd, 1906.

Circuit Clerk Barton was here yesterday to see the voters of this community. Mr. Barton's official duties have prevented his getting out to canvass, and his time is yet very limited in that way. With him, it is duty first and electioneering afterwards, but he wishes to be remembered by the voters when casting their ballots. His record is one of the best ever made in the circuit clerk's office, and he asks the customary endorsement of a re-election.—Midletown Chips.
